

PRIVATE EQUITY

Companies investing in private equity need to be informed about potential investment opportunities as well as market factors that may impact such investments. The Comtex **Private Equity CustomWire** has been designed to provide this visibility to organizations in the private equity marketplace.

The **Private Equity CustomWire** includes news from a wide array of publishers worldwide and focuses on providing information about non-public entities. Additionally, Comtex has supplemented this content with extensive news about economic and market conditions.

Comtex's **Private Equity CustomWire** supplies your customers with real-time news, reports and analysis focused on U.S. market activities and international events related to trade and economic policies. Your customers will be the first to have breaking reports on legislative policies, international trade deals and disputes, as well as events occurring across the globe that affect economic growth.

The **Private Equity CustomWire** is powered by content from financial heavyweights as well as several well-known global publishers. With its broad range of coverage and non-stop delivery, the **Private Equity CustomWire** provides your clients with targeted cutting edge analysis and critical news that will allow them to assess the imposing world of private equity.

Make it your mission to help your clients leverage information content into an improved bottom line. Give your clients Comtex's **Private Equity CustomWire** today.
