

RESOURCE NEWS INTERNATIONAL

Resource News International, established in 1995, is a news service that produces business and financial news. Resource News International, a Canadian company that covers predominantly Canadian equity companies and commodities, also provides information on commodities, currencies and industry sectors throughout the Americas.

Resource News International coverage includes the following:

- **In-depth commodities coverage:** Daily coverage of commodities information tailored to the investment audience with a focus on agriculture in Canada, the United States and South America.
- **Reports on major business sectors and financial information:** News, prices

and statistics on the energy, metals and mining industries, as well as currency information.

Resource News International content can be found in all Comtex **CustomWires®** including **Wall Street** and **International**. Resource News International is also available as a **Full Feed** offering.

For investors and businesses with strong agricultural interests, it pays to hedge your bets. Additional news and information increases profit-making opportunities. Resource News International— a valued resource in the commodity marketplace.
